Categorical Exclusion (CX) Determination

Proposed Action

90-Day Resource Conservation and Recovery Act (RCRA) Accumulation Area

Location

Feed Materials Production Center, Fernald, Ohio

Description of the Proposed Action

The proposed action is a part of the Building 64 Storage Facility and will be sectioned off to provide a 90-day RCRA Staging Area for drummed soil cuttings from monitoring well borings. The staging area will be prepared to meet the requirements of 40 CFR 265 for a RCRA 90-day accumulation area.

CX to be Applied

Under the Amendments of Section D of the Department of Energy National Environmental Policy Act (NEPA) Guidelines, general, plant projects such as road and parking area resurfacing, modifications to heating-ventilation-air conditioning systems, minor alterations of existing buildings and other similar projects where: (1) the projects are located within previously developed areas and will not affect environmentally sensitive areas such as archeological sites, critical habitats, floodplains, and wetlands, and (2) the projects are not part of a proposed action that is or may be the subject of an Environmental Assessment (EA) or Environmental Impact System (EIS).

Compliance Action

I have determined that the proposed action meets the requirements for the CX referenced above. Therefore, I have determined that the proposed action may be categorically excluded from further NEPA review and documentation.

Approval:

Leo P. Duffy, Director
Office of Environmental Restoration
and Waste Management
